

## SEPARATION OF TWO YEARS

Gen. Otis Says Army is Defending Inhabitants Against Outrage.

### HE NEVER SAW AGUINALDO.

Chicago, June 11.—General Otis' wife and daughter arrived in Chicago to meet him on his arrival from San Francisco. They had been separated two years.

In an interview General Otis said: "I left the Philippines situation in the best of hands. The officers are all able men and well qualified to cope with the different questions and situations that may arise. The war is over. This guerilla warfare can't last long. To be sure, we will have to repress those people for a number of years, but there is no organized force of Filipinos. The depredations that are now going on are conducted by robbers and lads. The United States troops are now engaged in defending the inhabitants of the Philippines against the robbery and murder committed by their own people. But the conditions are generally improving and in some parts are better than they have ever been."

"We have 55,000 effective troops under arms in the Philippines. Estimates regarding the number of inhabitants in the islands are all wild, but the number is considered to be between six and seven million. The great majority of the people desire peace and wish to again take up their business pursuits. Business in Manila has again resumed activity and the inhabitants are peacefully pursuing their vocations."

"I do not know where Aguinaldo is. I never saw him personally. It is possible but not probable that Aguinaldo is in the Cagayan section of northern Luzon. It is a rough mountainous country and very sparsely settled. At first he was regarded by his people as a leader, but of late he is losing prestige and is not held in such high regard."

"Stories have been circulated about depredations committed by men of our army, but they have been false. Our men have been held under close restraint and have conducted themselves like soldiers."

"I can't see that the administration or our distinguished secretary of war has made any mistakes in this campaign. We may have made mistakes over there, but, if so, they have been the result of human liability to commit error."

#### Last Hours in the Senate.

Washington, June 9.—For the senate it was a day of waiting. There seemed but little prospect of opening for an agreement between the two houses on the naval bill, but at 3 o'clock, the session of the house became known, and the hour of 5 o'clock was fixed for adjournment. No further business was done; previous this time to Sen. Beveridge's joint resolution to give a canon to the Sons of Veterans was adopted and also a bill to pay for corn seized by the troops in the civil war. In addition action was taken on several private pension bills. The conclusion of the work of the senate was quiet and perfunctory, attended by no exciting scenes, such as are often incident to the close of a session, and when the gavel fell finally, expressions of relief and gladness were heard from all senators.

A Canton correspondent says the Boxers are smuggling in arms, including large numbers of rapid-firing guns.

#### To Improve Stock in Japan.

San Francisco, June 8.—Japan is seeking American and European cattle to introduce among native herds and improve the general stock of the islands. Four Japanese government officials especially commissioned to select and purchase fine stock have arrived here. They will inspect the herds of this state before going east and to Europe. They propose to get the best grades of breeding stock known.

#### Grain Dealers Watch Freight Rates.

Vinita, I. T., June 7.—The grain dealers of the Indian Territory have organized and appointed a board of managers. The object of the organization is to protect members from excessive freight rates, unfair inspection and unjust discrimination at destination points. These advantages secured, the grain dealer can pass the favor to the farmer and give more for grain. The following officers were elected: President, E. N. Ratcliffe, of Vinita; vice president, D. E. Kirkpatrick, of Claremore; secretary, W. J. Strange, of W. W. England, Afton.

#### A State Employment Bureau.

Kansas City, Mo., June 11.—State Labor Commissioner Johnson has opened a free employment agency at 209, Shibley building, Kansas City, Mo., for the benefit of men seeking work in the harvest fields. P. B. Scott, assistant labor commissioner, is in charge of the office.

Commissioner Johnson's reason for establishing this employment bureau is to prevent the further robbery of men applying for work as harvest hands by the local employment agencies.

#### Places Rapidly Filled.

St. Louis, June 9.—A number of motormen and conductors have arrived from Philadelphia and Baltimore. "In addition to these," said General Manager George W. Baumhoff, of the Transit company, "others are coming from other cities and we will soon have enough experienced men to run all the cars. With each day the chances for the strikers getting their places back diminishes. Their places are being rapidly filled and in a few days there will be no vacancies."

## THROUGH DAWNS EARLY LIGHT

The House Closed the Session With Patriotic Songs.

Washington, June 9.—The last days of the session of congress, and the nights as well, had witnessed scenes of party passion and personal rancor, in which the house was brought to the brink of actual riot several times. In the closing half hour, while bills were being signed, and the last formal action was keeping engrossing clerks, presiding officers and the president employed, a few members gathered near the rostrum and began singing patriotic songs. All space in the galleries was packed full of people. As the singing proceeded members joined the group and everybody joined in choruses. "Columbia, the Gem of the Ocean," "Auld Lang Syne," "The Red White and Blue," and "Dixie," succeeded each other, with an ever-increasing volume of voices. But none of these could compare with the enthusiasm evoked when Mr. Fitzgerald of Mississippi, started the national anthem with the inspiring words, "Through dawn's early light." In an instant all the men, women and children in the galleries were on their feet joining in the singing. The mighty chorus from thousands of voices reverberated through the hall, making the pulses leap and the blood throb. It was a magnificent and soul-inspiring spectacle. The ladies kept time to the rhythm of the music with their handkerchiefs and the men beat the measures with their hands. The speaker, pausing as he entered the hall, raised his voice also. At 4:50, when the speaker attempted to call the house to order the members were still singing. With one accord they turned upon him and drowned the crash of his gavel in the strains of "For He's a Jolly Good Fellow." With this tribute to the speaker's popularity the singing ceased and Speaker Henderson, after a closing address, announced final adjournment.

**Captain Watson is Shot Again.**  
Girard, Kansas, June 11.—Information has just been received that Capt. Wm. J. Watson, Co. M., 40th U. S. Vol., had his leg amputated above the knee on account of a wound received in battle with Filipinos.

Capt. Watson entered the services as first lieutenant of Co. D, 20th Kansas in April, 1898, was promoted to captain in March, 1899, commanded Co. E in the Malolos campaign and at the battle of Guiguinto was seriously wounded in the breast; the bullet was never removed as it is located so near the heart that physicians consider that an operation would be attended by too much danger.

Capt. Watson was mustered out with the Twentieth Kansas and immediately accepted a commission in the 40th U. S. volunteers. Mrs. Watson's bride of a few weeks, accompanied her husband to Manila.

#### To Visit the Dowager Empress.

Washington, June 11.—Almost the only subject before the cabinet meeting was the situation in China. Secretary Hay read a cablegram from Minister Conger at Peking in which he stated that there was no improvement in the situation and asked for instructions. Secretary Hay stated after the meeting that a reply would be sent to Mr. Conger substantially reaffirming the one sent a day or two ago to the effect that he will be expected to do whatever is necessary to protect the lives of Americans and their property and to maintain the dignity of this government. It is understood here that the representatives of the powers in Peking will call in a body on the dowager empress and present the necessity of her taking immediate and vigorous action to suppress the rioters. It is assumed that Mr. Conger will join the other representatives.

#### Sheep Camp Robbed.

Sterling, Col., June 8.—The sheep camp of King and Southgate was robbed by two men, who bound and gagged the proprietors and their two employees. After the robbers left the sheepmen released themselves and aided by a neighbor overhauled the robbers, killing one and badly wounding and capturing the other. The latter said they were from Tennessee. James Lynch, one of the pursuers, was painfully wounded in the hip.

#### This Country Will Not Get Mixed Up.

Washington, June 8.—The state department still finds itself unable to do more than it has already ordered respecting the protection of American interests in China. Troops are not available and the government here is disinclined to participate in any joint demonstration that would menace the integrity of the Chinese empire. This statement is a sufficient answer to the intimation coming from British newspapers that United States co-operation with British forces in China would be welcomed.

#### Japan and Korea.

Yokohama, June 11.—More serious from a Japanese point of view than the rising of the Boxers in China is the sudden tension between Japan and Korea as the results of the protests of Japan against the torture and execution of political prisoners by the Korean government. The Korean Emperor absolutely refuses to grant an audience to the Japanese minister. The feeling here is exceedingly excited. It is thought here that Russian influence is behind the affront given.

#### Now in North Borneo.

Victoria, B. C., June 9.—News was brought from the east by the steamer Empress of Japan that there is a serious uprising against the British in north Borneo. Many refugees who arrived in Lauban say that the cause of the outbreak was the general dissatisfaction against the rules of the chartered company. In the fighting several British were killed and seven wounded. Twenty-five Chinese were killed, and the environs of the city were totally destroyed.

## WOMEN COMMIT OUTRAGES.

Threaten Women Teachers With Tar And Feathers.

### ANOTHER CAR DYNAMITED.

St. Louis, Mo., June 11.—A mob of furious women and boys beat and denuded a young woman who makes her living by peddling lunches among employees of the street car line. When the mob had stripped her to the waist, one woman daubed her with paint, while two others held her, the jeering boys and women of the mob applauding the outrage and throwing mud. Three shop girls were attacked by the same mob an hour later and they were also partially denuded before escaping. An organized "committee" of women began to visit the public schools this afternoon, entering the school rooms, accusing the teachers of riding on the tabooed cars and threatening them with bodily harm if they did so again. At the Mount Pleasant school, the leader of this committee seized the principal, Mrs. Fanning, shook her violently and announced that she would be tarred and feathered if either she or any of her teachers rode on the cars again.

A car on the Lindell division of the Transit company containing two officers and the crew was lifted several inches by an explosion of dynamite. Beyond the breaking of the car windows no damage was done.

Seven deputy sheriffs were arrested and locked up in the hold-over at the four courts. It is charged that they refused to ride on Broadway cars for the purpose of protecting the Transit company's property. All of the men stated as their objection to service that they were tired of sleeping with non-union men and protecting property interests which, in their opinion, should not be protected. They said they understood that they were sworn in for the purpose of protecting citizens from violence and preservation of law and order.

#### Storm in Southeast Kansas.

Galena, June 9.—Mills and crushers are greatly damaged by the storm, here and at Empire. The storm was worse at Miami. Thomas Skinner was killed there. The Miami bank was struck by lightning and with other buildings, was badly damaged. Parsons.—A terrific wind has done great damage to buildings and crops. A Frisco train had a coach blown from the track.

Mound City.—A north west wind storm did damage here to trees, outbuildings and chimneys.

Oswego.—Wind caused a severe wreck on the Frisco near here. The train was lifted from the track and two express cars were dropped 30 feet from the rails. No passengers were hurt.

Chetopa.—The village of Faulkner is almost completely destroyed.

**Aguinaldo's Papers Show Treason.**  
Manila, June 8.—In the chase of Aguinaldo's party, his forces were divided into tens. One of these parties was led by an officer who was shot. It is said by the natives that Aguinaldo was shot in the shoulder. The horse the officer was riding when shot was captured. The horse and saddle held papers which would show that the officer was either the chief or his adjutant. The papers prove treason on the part of trusted Filipinos, including telegraph operators who had been retained in the service of the Americans. They had sent Aguinaldo copies of important telegrams exchanged between American officers.

#### About British Prisoners.

London, June 9.—Lord Roberts is reported to have intercepted two trains loaded with prisoners while leaving the vicinity of Pretoria. Sixteen hundred British prisoners were removed. The British under Major de Lisle captured a machine gun and caused the Boers heavy loss, the British casualties being slight. Boer officials removed \$300,000 in gold from the national bank June 4, but did not touch the cash holdings of any of the other banks.

#### All Left To Mr. Conger.

Washington, June 9.—Mr. Conger, our minister to China, has full discretion. If he should send an expedition to the interior of China it would be equivalent to a declaration of war. The state department will adhere to its old time policy of non-interference and will not become entangled with the projects of other powers and it is confident that it can take care of all American interests during the crisis without involving itself or losing prestige.

#### Commissioners To Buffalo.

Topeka, June 11.—Governor Stanley has appointed the following commissioners to the Pan-American exposition to be held at Buffalo in 1901: L. F. Randolph, Nortonville; H. F. Sheldon, Ottawa; C. A. Mitchell, Cherryvale; John Madden, Emporia; Colonel E. C. Little, Abilene; W. S. Mitchell, Beloit; J. E. Junkin, Sterling; F. D. Coburn, Kansas City. The governor also recommended the election of Mrs. A. T. Thompson, of Topeka, as vice president.

#### He Will Get It Back.

Topeka, June 9.—A new banker in a little Kansas town not over 100 miles from Topeka is out \$50 in cash. When he started his bank a few months ago Bank Commissioner Breidenthal notified him that under the law he would have to pay the government a tax of \$50. So he bought five \$10 revenue stamps and stuck them on his charter. A few days later a deputy revenue collector called upon him for his tax. He had to be shown that he had not paid the tax.

## CONGRESSIONAL NEWS.

What is Being Done in the Fifty-Sixth General Assembly.

**JUNE FIFTH.**  
The senate passed the Cuban extradition bill; also the emergency river and harbor bill providing for surveys and for certain public works. The general deficiency bill was passed. A general rush was made to get action on various bills by consent, but all met objections. To fill the waiting time Senator Teller talked about the Philippines. The sundry civil bill still hangs up in conference with 65 disagreements.

The house passed the anti-trust bill, amending the Sherman law so as to give the courts jurisdiction, with only one opposing vote. The bill was amended so as not to apply to labor unions.

**JUNE SIXTH.**  
An agreement has been made in conference on the Kiowa and Comanche opening, Indians to get 160 acres each and a reservation of 480,000 acres in common, the remaining 2,000,000 acres to be thrown open but not under the free homes law.

The senate passed bills changing the U. S. court sessions from Cameron to Potosi, I. T., to permit the use of timber and stone for domestic and industrial purposes in Indian Territory; to provide for the sale of isolated tracts of land in Kansas.

The inter-oceanic committee reported a resolution to abrogate the Clayton-Bulwer treaty. The house passed the \$5,000,000 appropriation for the St. Louis exposition.

**JUNE SEVENTH.**  
The senate killed the house anti-trust bill by voting 41 to 22, so as to refer it to a committee. The conference reports were finally adopted on the sundry civil and naval academy appropriation bills. The senate worked practically all night on the conference and executive session.

The appointment of Gen. Wheeler as Brig. Gen. in the regular army and that of Gen. Otis to Major General and Chief of Indian Territory, to provide for the sale of isolated tracts of land in Kansas, were confirmed. The appointments of the court of private land claims and that of rail agents pending were acted upon favorably except that of Mr. Bynum.

The house was in session until 3:30 a. m. and then took a recess until 8 this morning. The speaker refused to agree with the senate's conditional provision for a government steel plant; and at a late hour last night a recess was taken until today. Another disagreement was over ocean surveys, the dispute being whether the product of them should be sold or should be done as the work of the coast and geodetic survey.

A new conference committee was appointed by Speaker Henderson composed of supporters of the position taken by the house.

The resolution for dismissal of Senator Clark of Montana and another anchor, which, with the rest caused a suspension of adjournment.

The Fort Hall reservation, carrying with it the opening of the Kiowa and Comanche country, was agreed to in both houses at 5 a. m. this morning.

The house passed the senate bill permitting citizens of the territory to build city buildings. The senate and the house agreed at about 3 p. m. today to adjourn at 5 o'clock.

The House Ways and Means committee was authorized to meet before the opening of the session of congress in December to draft a measure for the reduction of revenues. A practical agreement was made on the differences between the houses on the naval bill, which usually results in its passage.

#### Mr. Flynn Does Not Know.

Washington, June 11.—Delegate Flynn has received queries from Oklahoma about the chances of parties who have paid for their claims to get their money back. He has replied as follows: "No homesteader in Oklahoma has been compelled to prove up except of his own volition. When the time of payment came due congress always extended the same. Hundreds laughed at the idea of obtaining free homes, and proved up. Whether relief can ever be secured for those who after five years' residence proved up, I cannot say."

#### Dewey Never Wrote to Aguinaldo.

Detroit, June 11.—Admiral Dewey, while here was shown the Manila Times which asserts that among papers found by General Funston were certain letters from him. He said: "I never wrote a letter to Aguinaldo in my life. Whenever I wanted to see him I sent for him. He was employed by me for certain purposes, just as I employed a lot of other people among the natives. I made him no promises. If they had been 5,000 American troops with me in the beginning to occupy the city and maintain order there would never have been this trouble."

#### Escaping to the Coast.

London, June 9.—The situation in China continues full of interesting features. The naval commanders in Chinese waters have received identical instructions as to procedure, being left to their discretion. No fear is entertained as to the safety of the legations at Peking. European residents are escaping to the coast. Peking is in a very excited state. A thousand foreign guards are guarding the legation houses. Six hundred international troops are at Tientsin with six guns.

#### The Cherokee and Creek Treaties.

Washington, June 8.—Despite the efforts of the members of the house committee on Indian affairs to get the Creek and Cherokee agreements ratified, the bills ratifying them will fail. An effort was made to get these bills up in the senate, but Senator Stewart of Nevada objected and both went over. Both of the Indian committees have done their utmost to get the bills ratifying the treaties through. Senator Stewart is being severely criticised for his course.

#### A Tornado of Fire.

Duluth, Minn., 11.—The entire business and most of the residence section of the town of Virginia, on the Mesaba iron range, has been wiped out of existence and it only took sixty minutes to do it. In that time fully 125 buildings were reduced to ashes. Telegraphic communication was cut off very soon after the fire came and was not resumed until this evening.

There is a growing admiration for the woman who doesn't know the king from a two spot.

## American Skill in England.

England's recent developments in electric-railway construction have been so great as to induce the capitalists of that country to establish a big plant for the production of the materials, most of which are now imported from the United States. The technical director of the factory will be Prof. Short, an American engineer, and American methods will prevail throughout.

#### Big Revenue Tax on Mortgage.

Uncle Sam's war revenue income gets additional boosts of considerable size. The revenue stamps on the mortgage for \$21,000,000 recently given by the New York Gas and Electric Light, Heat and Power company to the Central Trust company amounted to \$10,499.50.

#### Work Plentiful in England.

In England there is a marked decrease in the number of prisoners for trial in the winter assizes. It is supposed to be because so many men have gone to the war that employment is plentiful, and one of the chief incentives to crime—want of work—is absent.

#### Away Down in the Earth.

The deepest hole in the earth is at Schladebach, near Ketschau, Germany. It is 5,785 feet in depth and is for geological research only. The drilling was begun in 1880 and stopped six years later because the engineers were unable with their instruments to go deeper.
